## PROFILE

Recent BS Information Technology graduate with a strong academic foundation and hands-on experience through capstone and training projects. Highly trainable, adaptable, and eager to grow in a professional IT environment while contributing to system development and technology support.

## CAPSTONE PROJECTS

### Access Computer College

Akeesha E-Liquid Vape Manufacturing (Capstone Project, 2022, Role: Group Leader).

Developed a WordPress-based e-commerce website featuring user authentication, shopping cart, online checkout, admin order management, and sales analytics. Deployed publicly via cPanel; awarded Best Capstone Project.

### Kodego (Code-go) Bootcamp

Inkless Reads (Bootcamp Capstone Project, 2023, Role: Front-end Dev).

Full-stack e-book store built with React.js, Laravel, MySQL, and Bootstrap, featuring API-driven book listings and responsive design for multiple devices.

### Nanay's in IT Program

Kusina Buddy (Capstone Project, 2025-2026, Role: Group Leader).

Kusina Buddy (Nanay's in IT Program Capstone Project, 2025-2026)

Developed a web-based AI recipe generator that creates personalized recipes and weekly meal plans based on user-selected ingredients. Implemented backend logic using Python, Flask, GenAI, and APIs, with a responsive interface built using HTML, CSS, Bootstrap, and JavaScript, including integrated tools such as a calculator and notepad. Deployed the application on Render.com for public access.

## EDUCATION
